Summary

Frontend-focused Full Stack Engineer specializing in **Next.js**, **Tailwind CSS**, and **high-performance dashboards and landing pages**. Proven experience delivering **scalable, user-centric web applications**, **owning features end-to-end**, and optimizing **UI/UX and frontend performance**. Experienced in building **personalized, data-driven platforms** in **fast-paced, cross-functional environments**.

Skills

- **Programming Languages**: JavaScript, TypeScript, C++, SQL
- **Backend**: Node.js, Express.js, RESTful API Design
- **Frontend**: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Framer Motion
- **Databases**: PostgreSQL, MySQL, Prisma ORM
- **Cloud**: AWS EC2, AWS RDS, AWS S3, AWS Amplify, AWS Cognito
- **CS Fundamentals**: Object-Oriented Programming, Data Structures & Algorithms, DBMS
- **Tools**: Git, GitHub, Postman, Linux, Visual Studio Code, Jest

Projects

Habiful - Distributed Property Management Platform

Next.js, React, Redux, Node.js, Express, PostgreSQL, Prisma, AWS

- Built **responsive dashboards and landing workflows** using **Next.js**, **React**, and **SQL-backed REST APIs**, supporting **300-500 active listings** and **150-200 monthly operational workflows**.
- Developed **modular UI components** with **Redux-based state management**, improving **cross-page data consistency** for **500+ active users**.
- Implemented **secure authentication**, **role-based access**, and **personalized dashboards**, enabling **1,000+ protected user actions**.
- Optimized **frontend rendering**, **API queries**, and **database indexes**, reducing **page load and workflow latency by 30%**.
- Owned **end-to-end feature delivery** from UI design to deployment, restoring **100% file upload success** and improving **system reliability**.

Newslytics - Data-Driven Web Dashboard

React.js, JavaScript, HTML5, CSS3, REST APIs

- Developed a **real-time analytics dashboard** processing **1,000+ daily API responses** with responsive UI layouts.
- Built **reusable visualization components** with **robust loading and error handling** to improve user engagement.
- Optimized **rendering pipelines and pagination**, improving **perceived performance by 25-30%**.

Experience

Software Developer — May 2024 - July 2024

Kalam Solutions

- Designed, developed, tested, and maintained **RESTful backend services**, delivering **5+ production-grade features** and improving **end-to-end response times by 20 to 25%.**
- Collaborated with **product, design, and engineering teams** to improve **UI/UX quality and feature usability**.
- Took **ownership of deployment, testing, and bug resolution workflows**, accelerating release velocity.

Full Stack Developer — March 2022 - July 2022

CoachBudy

- Built **responsive landing pages and student dashboards** using **React and Tailwind CSS**, improving **cross-device engagement** across learning workflows.
- Developed and integrated **15+ RESTful APIs** to support **student, coaching, and admin modules**, enabling seamless data flow and feature personalization.
- Implemented **role-based authentication and authorization** for **admin, coaching, and student portals**, reducing access-related issues by **30%**.

Education

Indian Institute of Information Technology and Management Gwalior — 2020 - 2025

Integrated B.Tech and M.Tech in Information Technology

Achievements & Leadership

- **AASF Winter Project Runner-Up**: Ranked 1st in Web Development among 100+ teams.
- **Student Activity Council (Sports) - Secretary**: Led Urja 2023, coordinating 100+ volunteers.
