Summary

Frontend-oriented Web Engineer with strong fundamentals in **HTML, CSS, JavaScript, and React**. Experienced in building and shipping **user-facing web interfaces** using React and Next.js, and debugging **real-world UI and performance issues** in production environments supporting **hundreds of users**. Comfortable collaborating with product and design teams while delivering scalable, maintainable frontend systems.

Skills

- **Frontend**: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux, Framer Motion
- **Programming Languages**: JavaScript, TypeScript, C++, SQL
- **Backend**: Node.js, Express.js, RESTful APIs
- **Databases**: PostgreSQL, MongoDB, Prisma ORM
- **Cloud & Deployment**: AWS EC2, AWS RDS, AWS S3, AWS Amplify, AWS Cognito
- **CS Fundamentals**: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Tools**: Git, GitHub, Postman, Linux, Visual Studio Code, Jest

Projects

Habiful — Web-Based Property Management Platform

React, Next.js, Tailwind CSS, Node.js, PostgreSQL, Prisma, AWS

- Built and shipped **user-facing web interfaces** using React and Next.js for browsing, applying, and managing property listings.
- Supported **300–500 active property listings** and **150–200 rental applications per month**, with features regularly used by hundreds of users.
- Translated product workflows into **responsive, component-driven UI** with predictable state transitions and clear user feedback.
- Handled frontend edge cases including **loading states, error handling, and conditional rendering**, improving interaction reliability.
- Debugged production UI and integration issues (including file upload flows), improving overall feature stability.
- Deployed an SSR-ready Next.js frontend on **AWS Amplify**, closely mirroring real-world production architecture.

Newslytics — Data-Driven Web Dashboard

React.js, JavaScript, REST APIs, CSS

- Developed a responsive dashboard rendering **1,000+ daily API-driven data points** across multiple views.
- Designed reusable React components to manage **dynamic data, loading states, and error scenarios**.
- Reduced perceived load times by approximately **27%** through frontend rendering and layout optimizations.
- Ensured consistent UI behavior across devices using responsive CSS and component-level styling.

Experience

Software Developer Intern — May 2024 – July 2024
Kalam Solutions

- Worked closely with frontend and backend engineers in an agile setup to deliver **production-ready web features**.
- Contributed to UI-integrated API flows, ensuring **predictable frontend behavior** and smooth data exchange.
- Improved performance and reliability of **user-facing features** used by 300+ active users.

Fullstack Developer Intern — March 2022 – July 2022
CoachBudy

- Contributed to frontend and backend modules of an early-stage platform using the **MERN stack**.
- Built maintainable frontend components with a focus on clarity, reusability, and long-term maintainability.

Education

Indian Institute of Information Technology and Management Gwalior — 2020 – 2025
Integrated B.Tech and M.Tech in Information Technology

Achievements & Leadership

- **AASF Winter Project Runner-Up**: Ranked 1st in the Web Development track among 100+ teams.
- **Student Activity Council (Sports) — Secretary**: Led *Urja 2023*, coordinating logistics and managing 100+ student volunteers.
